

# July

If you are looking to have a "GREAT" night out for all ages – look no further. Last night Jim and I along with Art and Sue went to the Palace Theater in the Dells for a dinner theater experience. The food was extremely good including the dessert, and the performance was outstanding. The act was the "Million Dollar Quartet". Playing until August 20, it is an experience well worth the price. From the excellent service to the excellent show, we had a great time. The main principals in the show are from Chicago and New York – very talented young men with great acting, singing and playing abilities. The show is about one night at Sun Records in 1956 with Elvis, Johnny Cash, Carl Perkins, and Jerry Lee Lewis. If you have time this summer, I would highly recommend this particular show. There were all ages attending and all enjoyed themselves, which speaks to the legends of these singers. It's funny and it's moving – don't miss it. Contact the Palace at 608-253-4000. To get there, it's better to take Exit 92, turn toward the Dells, and when you get to the Wilderness resort, look across the street, there should be a Dominos with the Palace behind it. On to the news. . .

## 5 MPH & SPEED BUMPS & CHILDREN DRIVING

I have come to the conclusion that many of you don't know when you are doing 5 mph because you don't have a speedometer in your golf cart. Those of you with speedometers, please keep an eye on it so you are doing 5 mph. As a reminder, 5 mph is a very fast walk.

I have nagged and dwelled on the subject of the 5 mph speed limit in this park, and we are dismayed why some of you think you don't have to abide by this rule. It is a common fact that you cannot react as well at 15-20 mph as 5 mph. No one wants a tragic accident involving a child on his or hers conscious. On the other hand, parents please remind your children of the rules of the road or walk with them. But, again, 5 mph is the rule!

Which brings me to the speed bumps. I can't believe I've been told that some of you are going around the two speed bumps we have installed. Please show some respect!

Which brings me to another problem and solution. Your children or grandchildren are NOT allowed to drive any motorized vehicle in this park without a valid driver's license or with an adult over 18 with a valid drivers license. It is in our bylaws and we are cracking down. We have seen children as young as 7 years old driving without any adult present both golf carts and ATV's. From this point forward, this can no longer happen. The only exception to this rule is our 15-year-old grandson, Nathan, and he is only allowed while working. After hours he walks like the rest.

We are saddened by the complaints people are forced to voice just to keep their children safe. You want to drive too fast, then take your chances with the cops on the highway.

## NOW FOR SOMETHING COMPLETELY DIFFERENT: "The Larch" (Monty Python circa 1970s)

### CHRISTMAS IN JULY

Enclosed is the invitation for Christmas in July – please read it ☺

## NEW OPENING FOR EXISTING RESTAURANT

The Fresh and Frozen Seafood restaurant is now open under new owners. Located on Hwy 58 going toward Mauston. Along with their seafood, they serve (on Sat. nights) Brisket, Ribs, Smoked Chicken and Steaks. Stop in the office for a menu ☺

## MAGAZINES HAVE ARRIVED

The "Juneau County Guide" and the What's Floatin' magazines are in the office for you to take and use this summer. The County Guide has all sorts of info and activities in Juneau County this summer and What's Floatin' has a list of all the activities taking place around Castle Rock Lake.

## MOWING LAWNS

Per our park rules, if you do not mow your lawn on a regular basis, we will mow it for you and back charge you \$20. Again, just a reminder.

## FIRE SUPPRESSION

Another reminder – before you retire for the evening, please, please, please make sure your fire it is completely out – with water and stirring. We lost nearly 10 acres of trees here with a fire that was thought to be put out and was not – and that was a fire that burned for two months with a couple of snow storms and rain in between – so I know what I'm talking about when it comes to putting your fire out and the ability of a campfire to retain its embers and heat.

Over →

## LOST AND FOUND

Come one, come all, to look at the mountain of sunglasses we have accumulated over time. Also there are other items as well like a pair of flip flops.

## DOGS ON LEASHES

Once again, I am getting complaints about dogs who are not on a leash on the camper's site and run out in to the road when they are walking their dog(s) past a site. This is unacceptable. We have a dog park for your dog to run and run – please use it, and when you are on your site, keep your dog on a leash!!!

## SWIMMING LESSONS

The swimming lessons are doing well. My grandkids tell me they are learning a lot. Nathan, our oldest grandson, is going one-on-one with Jenna and learning life-saving techniques – we are pleased Jenna was willing to recertify this last winter and teach this summer.

## AN EWWW SETTING

As Earnest use to say- ewww! Someone cleaned their fish last week and left the remains directly behind a camper's site (on the new land we bought). The smell was just awful! Please clean your fish on your site and dispose of the remains in a plastic bag and in the dumpster or dig a hole and bury it by one of the maple trees near the road in front of Jim & Laurie's house.

## FOR SALE?

If you have a trailer for sale, please email me the particulars and pictures and I will make a flyer for you and put it on the bulletin board. Or you can make your own flyer. You cannot put a "For Sale" sign on your site or in your window. Thanks ☺

## LEAVING?

If you are planning to leave Summer Hideaway, please let us know as soon as you know. We get calls from people all the time looking for a seasonal site. The advanced notice helps a lot – Thanks!

## CROSSING SITES

If you are crossing campers' sites (other than your own) to get from one street to another – please stop it. I'm thinking we are talking about kids – so parents please have a talk with your children to make sure they are not crossing other campers' sites. If you look at the layout of our park, there are six drain fields connected across that take you over three streets. The drain fields are between sites 91 & 90; 100 & 101; 112 & 111; 121 & 122; 130 & 129 and 139 & 140. With the addition, we will get a lot of mulch from the trees we will be shredding as the roads are cleared. We are going to take this mulch and create paths on these drain fields for everyone to cross from road to road without having to go around.

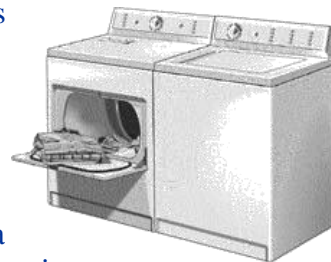

## WASHERS AND DRYERS

Some facts for our washers and dryers:

1. Washers run 35 minutes
2. Dryers run 60 minutes

If you do a load, try to remember to get back to take care of your wash. It seems when one person decides to do wash, many others have the same idea, which causes a backup if a person doesn't come in a timely manner to take care of his or her load. I hesitated to mention this here but it has happened frequently this last few weeks. Thank you ☺

## Christmas in July

**July 23 starting at 3 p.m.**

## Game Day

**August 20**

## Reminder:

**\$200 down payment for 2017 season is due November 30, 2016 and the rest is due March 15, 2017**
